

Year 1 Design and Technology: Textiles

Key Learning

Design

I am designing for _____

My product will be used by _____

My product can _____

Make

Scissors can be used to cut fabric.

Fabric can be joined using glue or a needle and thread.

Fabric can be made by **weaving** strips of thread or material in and out of each other.

Evaluate

I think the product/my product is successful because _____

It would be better if _____

There are different ways of joining fabric using a needle and thread. You can use an **overstitch** where you loop the thread around the edge of the fabric.

Key Vocabulary

design	A plan or drawing of what something will look like before it is made.
fabric	Cloth that is made weaving threads together.
product	Something that is made.
thread	Long, thin material that is used to make fabric or join fabric together.
overstitch	A sewing stitch where the thread of looped over the fabric.
