Year 1 World History: Explorers

Past Present Tim Peake - 2015 Neil Armstrong - 1969 British American 6 hours to reach space 8 minutes to reach ISS People on Earth The moon landing could watch Tim was televised in Peake live everyday black and white. on the internet. Armstrong spent 8 days in Peake spent 6 months in space. space.

The moon landing in 1969 is special because it was the first time anyone had landed on the moon. Neil Armstrong is remembered as the first person to walk on the moon.

Antarctic Explorers

Children's

In 1902, Robert Scott, Edward Wilson and Ernest Shackleton set off to find the South Pole. They managed to reach further South than anyone before but were forced back due to illness.

In 1908, Ernest Shackleton made another attempt to reach the South Pole on the Nimrod Expedition. Again they had to turn back due to illness and a shortage of food.

In **1910**, Robert Scott set off on the **Terra Nova expedition** in another attempt to reach the South Pole. The mission was difficult due to poor weather conditions.

Finally, in 1912 Scott and his team reached the South Pole and planted the British flag.

Finding out about the past

We can find out about the past in living memory by asking questions to people who were alive at the time.

We can find out about the past before living memory by looking at drawings, photographs and video's made at the time of the event.
