

Year 3: Digital Literacy

Key Learning

I can represent myself in a number of ways online. This could be like having a unique username or an avatar of myself.

The internet can be used for many things. Games, social media, research and shopping are some ways it is used.

Know that there are dangers of **too much** screen time and how spending too much time on technology can negatively impact our lives..

You can use a key word in a search engine and sometimes **autocomplete** will suggest what you might be searching for. You can use this to help narrow your search.

Know that what you say or write online could hurt other peoples feelings.

If you trust someone online but then change your mind about it, this is okay and you can take your trust back.

You should only share information with people you know and can trust. If you are not sure—Ask an adult!

Know the difference between **liking** someone online and **trusting** someone online.

Know that there could be a risk communicating with someone you do not know online.

Know why people get together online with other people with similar interests.

Be careful when sharing information online about yourself and other people.

Know the difference between **knowing** someone in real life and **trusting** someone online.

You should use a secure password and know a strategy to keep it private.

Know who to ask if you are unsure or worried about things either you have posted or have seen online or if you are not sure what to post online.

Key Vocabulary

Identity	The meaning of being you. Who you are and what you like.
Avatar	An icon or figure representing a person as a character online
Online communication	People can use things such as emojis 😊 and text speak (lol) to communicate online
Communication technology	Equipment that we use to communicate with, such as a mobile phone or tablet.
Auto complete	A software function that completes partially typed words or sentences
