

# Year 4 Design and Technology: Textiles

## Key Learning

### Design

My design is for \_\_\_\_\_

My design will hold \_\_\_\_\_

My design will fasten by \_\_\_\_\_

Velcro is a simple yet effective type of fastening.

### Make

Use cardboard to make your own pattern pieces. Pattern pieces help you to cut your fabric out correctly. Make sure you place them on the material properly to avoid wasting any.

Place pattern pieces carefully to avoid wastage.

### Evaluate

I think my product does / does not fulfil its function because \_\_\_\_\_

My product is suitable for the user because...

I could improve on...

Choose a joining technique that is best for the fabric and the pattern e.g. if you made a purse you would need to make sure you stitched the sides carefully so no money would fall out.

## Key Vocabulary

aesthetic	The way the product looks.
seam allowance	Extra fabric used for joining together—usually 1.5cm.
velcro	A type of sticky fastener that can join two pieces of fabric together.
wastage	Extra fabric that is left over when you've finished cutting out with your
